Summary

Full-stack developer with hands-on experience building a greenfield financial coaching platform. Skilled in React, Angular, Node.js, PostgreSQL, and MEAN/MERN stacks. Brings 15+ years of technical problem-solving and operations experience, including fleet management and leadership roles. Recognized for ownership, adaptability, and collaboration. Seeking a junior software developer role to grow technical expertise and contribute to team success.

Technical Skills

Front-End: React, Angular, TypeScript, JavaScript (ES6+), HTML5, CSS3, TailwindCSS, Bootstrap

Back-End: Node.js, Express.js, PostgreSQL, MySQL, MongoDB

Full-Stack Experience: MEAN (MongoDB, Express, Angular, Node.js), MERN (MongoDB, Express, React, Node.js)

Tools & DevOps: Git/GitHub, CI/CD pipelines, Docker (basics), Jest/Mocha (unit/integration testing)

Other: REST APIs, Authentication & Authorization (JWT/OAuth), Data Modeling, Agile/Scrum, Debugging

Professional Experience

Full Stack Developer — Fisecal (Financial Coaching Startup), Remote

March 2024 – 2025

- Delivered MVP platform within 6 months, enabling first customer onboarding.
- Developed both front-end (React, TypeScript, TailwindCSS) and back-end (Node.js, Express, PostgreSQL) systems.
- Implemented authentication flows, data models, and API integrations supporting 500+ accounts.
- Established CI/CD pipelines and automated testing, reducing release errors by 30%.
- Partnered with founders to translate business requirements into scalable solutions.

Lead Automotive Technician — Moses Toyota, Saint Albans, WV

April 2023 – Present

- Led diagnostics and high-complexity repairs, improving service throughput by 15%.
- Mentored 5+ junior technicians, enhancing team efficiency and knowledge transfer.

Mobile Fleet Mechanic / Shop Manager — Frito-Lay, Poca, WV

2018 – April 2023

- Maintained uptime of ~80 fleet units at 95%+ by implementing preventive maintenance programs.
- Reduced repair turnaround by 20% through streamlined parts inventory and vendor coordination.
- Balanced hands-on diagnostics/repairs with compliance documentation and scheduling.

Automotive Technician Roles — Toyota, Lexus, Hyundai, Firestone/Bridgestone

2008 – 2018

Completed factory training, achieved Toyota Expert Certification, and supervised small teams delivering high-volume repair operations.
